## Sustainable Community Health

Ensuring high-quality care remains accessible and economically viable for the future.

# Hindu Mission Health Services Nanganallur, Chennai

30 KVA  
Array  
Capacity

Optimized  
Rooftop  
Utilization

## Project Blueprint

Location:  
100 Feet Rd, Nanganallur,  
Chennai, Tamil Nadu

Coordinates:

Lat 12.978728°,  
Long 80.184779°

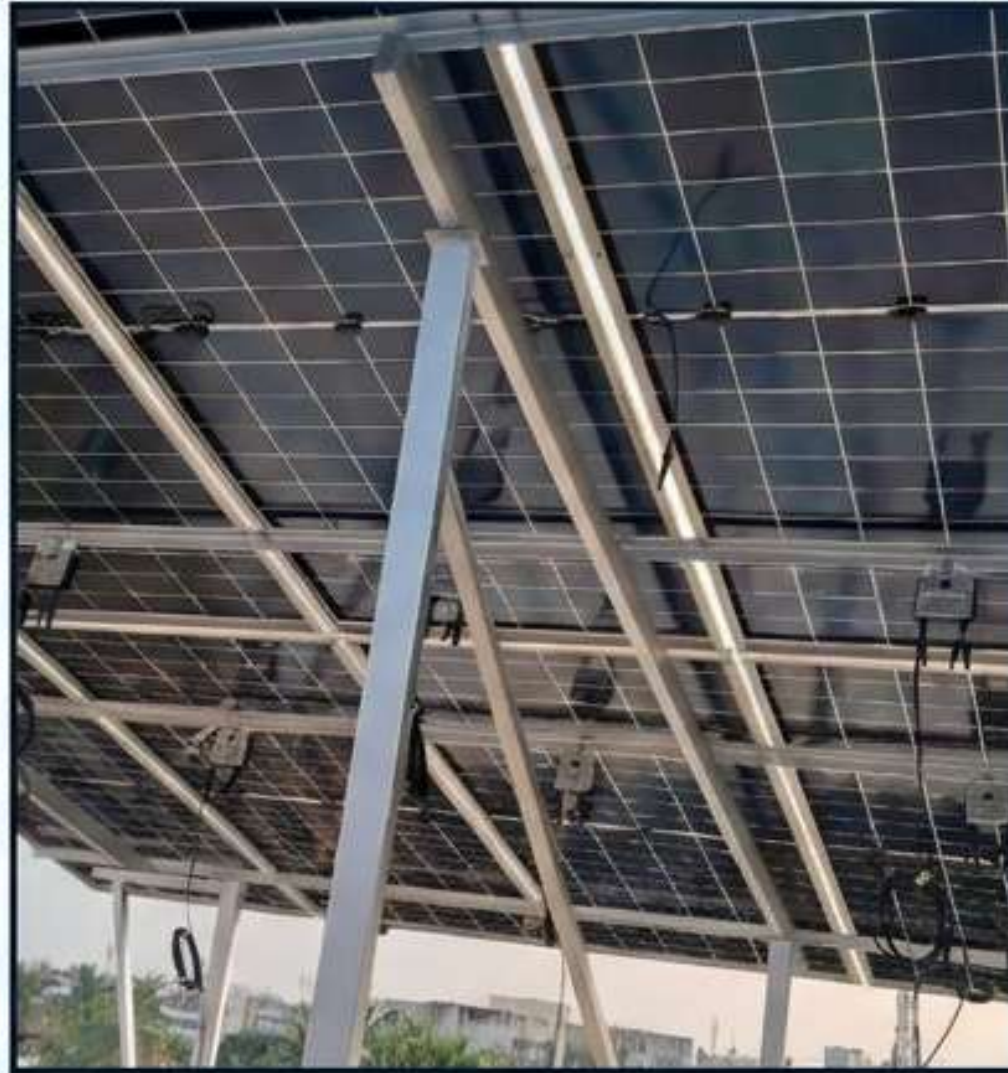

Status:  
Fully Operational

# Execution: Anatomy of the Installation

## Structural Framework

Engineering the custom rooftop mounting structure to maximize solar exposure.

## Array Integration

Securing the high-efficiency solar panel array and electrical routing.

## Completed Grid

The finalized 30 KVA rooftop plant, ready for generation.

# Cementing a Sustainable Legacy

The permanent recognition plaque installed at the facility.

Formal inauguration ceremony held on 17.02.26 at 12:00 Noon, marking the official handover of the renewable energy initiative.

# The Dual Return on Investment

## Economic Impact

**₹4.84 Lakhs**

Estimated annual savings.

**30% Reduction**

Total power expenditure of the hospital facility reduced by approximately one-third.

## Environmental Impact

- Generates clean, renewable electricity directly on-site.
- Drastically reduces the hospital's reliance on conventional, non-renewable power sources.
- Establishes a template for sustainable hospital operations.
